

ABOUT THE STUDY

- Review recommendations from FDOT's Interchange Concept Development Reports at each interchange
- Evaluate the mainline of I-95 interchange alternatives and the project's area of influence
- Evaluate project to meet Strategic Intermodal System standards
- Consider a context sensitive system of "Complete Streets"
- Evaluate multimodal accommodations (coordination with existing Park and Ride)
- Assess environmental impacts of the project alternatives
- Improve traffic operations, reduce congestion and increase safety through design year 2040
- Coordinate with existing and on-going projects and planning efforts
- Keep the public involved throughout the study

PURPOSE AND NEED

- Improve traffic operations
- Improve capacity
- Improve safety
